

## MINDO CLOUD FOREST DAY TOUR

Mindo is known and visited for its spectacular nature. As one enters an Andean Cloud Forest, it becomes immediately clear that this is an environment unlike any other in the world.

We start the tour with the early departure of the hotel and we go by the route to the coast to Mindo. The road passes along the western flank of the Andes mountain range, next to the monument of the Middle of the World, which marks the equatorial line. Throughout the tour, we are always accompanied by lush and green vegetation, with wide views of the mountains covered with primordial forests as far as the eye can see, together with the perfect subtropical climate, make this the ideal place for your ecological excursion.

You will meet the small towns on the highway and witness an astounding landscape transformation on the way. After approximately 2 hours, we will arrive to Mindo, a small town in the Andean foothills of Ecuador. Set in beautiful cloud-forest, it attracts birdwatchers first and foremost, but also has attractions for other tourists.

Av. Interoceánica y Siena, Edificio Halcón, Oficina 406  
Cumbayá, Quito - Ecuador

DESTINATION MANAGEMENT COMPANY

Mindo has several rivers flowing through the cloud forest, the waters semi-corrientosas allow tourists to embark on or float tubing, the same as the trail for several miles passing on to live an incredible adventure. The tubing is one of the sports in which participants can enjoy emotions, adrenaline, playing in the guide and more. This multi-adventure takes place in the Mindo River, offering all the thrills of a great adventure.

Mindo is a perfect area for adventure sports like Canopy, which is moving from one tree to another hanging from a steel cable, which are outlined in the woods with the help of a waist harness and a pulley.
